The Cincinnati Shear Manual is a product of Cincinnati Incorporated, a reputable manufacturer with decades of experience in producing high-quality metalworking equipment. This shear is designed for professional use, offering a combination of strength, precision, and ease of operation. Key features include: - Heavy-duty steel construction - Adjustable cutting capacity - Precise blade alignment - Ergonomic handle design - Compatibility with various sheet metal sizes and thicknesses The Cincinnati Shear Manual is often chosen by fabricators and maintenance teams due to its durability and straightforward operation, making it a trusted choice for both routine and complex cutting tasks.

Design and Construction

Robust Build Quality

The Cincinnati Shear Manual's frame is constructed from high-grade steel, ensuring longevity and resilience under demanding conditions. The solid construction minimizes vibrations and maintains consistent performance over time. Its heavy-duty build also means it can handle frequent use without significant wear, reducing downtime and maintenance costs.

Blade Design and Materials

The shear features high-quality blades, typically made from hardened steel for sharpness, durability, and resistance to wear. The blades are precisely aligned during manufacturing to ensure clean, accurate cuts across the entire length of the material. Some models feature replaceable blades, allowing users to maintain optimal cutting performance without replacing the entire shear. The blade gap can often be adjusted to accommodate different material thicknesses and types.

Adjustability and Capacity

One of the key strengths of the Cincinnati Shear Manual is its adjustable cutting capacity. Depending on the model, it can cut through various thicknesses of sheet metal, usually ranging from 16 gauge (about 1.6mm) up to 10 gauge (about 3.4mm). Adjustable stops and guides help in making precise cuts and repeatability easier. The shear's adjustable angles and stops enable users to perform bevel cuts or specific lengths, increasing versatility for different projects.
