

Schiffman And Kanuk 2007 Consumer Behaviour

Schiffman and Kanuk 2007 consumer behaviour provides a comprehensive framework for understanding how consumers make decisions, process information, and develop preferences in the marketplace. Their seminal work, often cited in marketing and consumer psychology, offers valuable insights into the factors that influence purchasing patterns and how businesses can leverage this knowledge to better serve their target audiences. This article explores the core concepts of Schiffman and Kanuk's model, its relevance today, and practical applications for marketers and businesses seeking to understand and influence consumer behaviour effectively.

Introduction to Schiffman and Kanuk's Consumer Behaviour Model

Schiffman and Kanuk's 2007 model of consumer behaviour is grounded in the idea that consumer decisions are influenced by a combination of psychological, social, and environmental factors. Their approach emphasizes the importance of understanding the consumer's internal motivations and external influences to predict and influence purchasing decisions accurately.

Core Concepts of Consumer Behaviour According to Schiffman and Kanuk

1. The Decision-Making Process

Schiffman and Kanuk outline a five-stage process that consumers typically follow when making purchase decisions:

1. **Problem Recognition:** The consumer identifies a need or problem that requires a solution.
2. **Information Search:** The consumer seeks information about possible solutions or products that can satisfy the need.
3. **Evaluation of Alternatives:** The consumer compares different products or brands based on features, benefits, and costs.
4. **Purchase Decision:** The consumer selects a product and makes a purchase.
5. **Post-Purchase Behaviour:** The consumer evaluates their satisfaction, which influences future decisions and brand loyalty.

Understanding these stages helps marketers tailor their strategies to influence consumers at each point of the decision-making process.

2. Internal and External Influences

Schiffman and Kanuk highlight that consumer behaviour is shaped by a blend of internal factors such as motivation,

perception, learning, and attitudes, and external factors including culture, social class, family, reference groups, and marketing stimuli.

1. Internal Factors:

1. Motivation: The driving force behind consumer needs and wants.
2. Perception: How consumers interpret information and stimuli.
3. Learning: Changes in behaviour resulting from experience.
4. Attitudes and beliefs: The predispositions that influence responses.

2. External Factors:

1. Cultural influences: Norms, values, and traditions.
2. Social influences: Family, friends, and social networks.
3. Marketing mix: Product, price, place, and promotion strategies.

These influences interact dynamically to shape consumer preferences and actions.

Key Theories and Models in Consumer Behaviour

Schiffman and Kanuk's work integrates several important theories that help explain consumer behaviour, including:

1. The Hierarchy of Needs

Based on Maslow's Hierarchy, this theory suggests that consumers have innate needs arranged in a pyramid—from physiological needs to self-actualization—that influence their purchase priorities.

2. The Learning Theory

This theory emphasizes that consumer behaviour is learned through processes such as classical conditioning, operant conditioning, and observational learning.

3. The Theory of Reasoned Action and Theory of Planned Behaviour

These models propose that behavioural intentions, influenced by attitudes and subjective norms, predict actual behaviour.

Implications for Marketing Strategies

Understanding Schiffman and Kanuk's consumer behaviour model enables marketers to develop targeted strategies that effectively influence consumer decisions.

1. Segmentation and Targeting

By analyzing internal and external influences, businesses can segment markets based on consumer needs, preferences, and behaviours, allowing for more precise targeting.

2. Positioning and Messaging

Marketers can craft messages that resonate with consumers' motivations and perceptions, addressing their needs at different stages of the decision process.

3. Product Development

Insights into consumer learning and preferences guide product innovation to meet evolving needs and preferences.

4. Enhancing Customer Experience

Focusing on post-purchase behaviour, companies can implement strategies to increase satisfaction and foster loyalty through excellent service, follow-up, and engagement.

Modern Relevance of Schiffman and Kanuk's Model

While Schiffman and Kanuk's work was published over a decade ago, its principles remain highly relevant in today's digital age. The proliferation of online information, social media, and e-commerce platforms has transformed how consumers search for information, evaluate options, and share their experiences.

Digital Consumer Behaviour

The core stages of decision-making now often occur across digital channels, where consumers:

1. Access vast amounts of product information via websites, reviews, and social media.
2. Engage in online comparisons and seek peer opinions.
3. Make purchases through e-commerce platforms or mobile apps.
4. Share post-purchase feedback instantly, influencing others' behaviours.

Marketers must adapt by leveraging digital marketing strategies such as search engine optimization (SEO), social media advertising, and content marketing to influence consumers effectively.

Practical Applications for Marketers

Applying Schiffman and Kanuk's framework can lead to more effective marketing campaigns. Here are some practical ways businesses can utilize these insights:

1. Conducting Consumer Research

Gather data on consumers' needs, motivations, and influences through surveys, focus groups, and online analytics.

2. Personalization and Customization

Use insights into the decision-making process to personalize recommendations and offers, increasing relevance and

engagement.

3. Content Marketing

Create informative and persuasive content that guides consumers through each stage of their journey, from awareness to post-purchase.

4. Building Brand Loyalty

Focus on post-purchase satisfaction by providing excellent customer service, loyalty programs, and engaging follow-up communications.

Conclusion

Schiffman and Kanuk's 2007 consumer behaviour model remains a foundational framework for understanding how consumers make decisions and interact with markets. By examining internal motivations and external influences through their detailed stages of decision-making, marketers can craft strategies that resonate with target audiences, foster loyalty, and drive sales. In today's digital environment, their principles continue to offer valuable guidance in designing effective marketing campaigns that adapt to changing consumer habits and technological advancements. Understanding and applying these concepts not only benefits businesses seeking competitive advantage but also enhances consumers' experience by providing them with relevant, timely, and personalized offerings. Cons: - The process can vary significantly across different products and cultural contexts, which the framework may oversimplify.

2. Internal and External Influences

The book emphasizes that consumer behavior is affected by a combination of internal psychological factors and external social influences. - Internal Factors: Motivation, perception, learning, and attitudes. - External Factors: Culture, social class, reference groups, family, and situational influences.
