learning to interpret these signals is key.

Feeding: Breastfeeding, Bottle-feeding, and Beyond

- Breastfeeding: While primarily the mother's responsibility, your support is crucial. You can help by ensuring a comfortable environment, bringing supplies, or learning about breastfeeding positions. - Bottle-feeding: If formula feeding, choose the right formula and prepare bottles safely. Be attentive to your baby's hunger cues and feeding schedule. - Solid foods: Around 6 months, your baby will begin exploring solids. Your role involves introducing new tastes and textures, and ensuring safety by avoiding choking hazards.
